

MYLES JORDAN

FILM ACTOR

PROFILE

I'm a film actor with over 3 years of experience in the field. I've learned much in film in front of and behind the camera, participating in various crew work, mostly as a production assistant. Acting is my primary focus and is what I have the most thrill and fun with. My goal is to perfect my craft to my best abilities and dive into different ventures within the creative world. In the long term, I aim to have my journey inspire others to find their purpose, strive towards happiness and remind them that living a life of regret and depression in no way for anyone to live.
