Ohio University 2004 - 2008

Bachelor of Science in Communication, Arts,
Entertainment, and Media Management - Cum Laude

ADDITIONAL EXPERIENCE

With over 15 years of experience as a Video Project Manager / Producer, I've had the good fortune to work behind the scenes on sitcoms for Disney, Comedy Central, and Amazon as well as producing animated shows, commercials, and content for Rogue Fitness.

Helping productions come together has proven to be very helpful with my work in front of the camera as an actor. I understand the production workflow on a deeper level, know the importance of professionalism while working with a client, and have an understanding of lightning, sound, and the other technical aspects of a production.

Lastly, knowing all the work that goes into video projects has given me an appreciation for the rare moments we get to work together on making magic happen!
